

Budgeting Guidelines

1. One-time revenues will be allocated to one-time expenditures; on-going expenditures will be covered by on-going revenues.
2. Year-end balances are not budgeted for ongoing expenses.
3. Funds are budgeted where they are expected to be spent so as to minimize transfers and protect budget integrity.
4. Contractual obligations and fixed costs are budgeted first.
5. New positions must be fully funded; salaries, benefits and support expenses.

Budgeting Principles

1. Transparency
2. Broad Participation
3. Balanced
4. Conservative
5. Complete/comprehensive (including long-term obligations)

Budgeting Prioritization

1. Align with College's Strategic Plan (Vision, Mission, Values, Strategic Goals)
2. Achieve Strategic Goals – ensuring student success, expanding services and access (growth).
3. Align categorical/restricted programs with Strategic Goals; to the degree possible and allowable, use those funds to support on-going District expenditures even if on a one-time basis.
4. Recommended level of reserves is currently 12%
5. To accommodate cash flow shortfalls, implement a disciplined spending plan tied to cash-flow projections with centralized spending control.
6. Use inter-fund borrowing in preference to external borrowing, due to added costs and potential conflicts between scheduling of repayment and deferred apportionment.

Budget Committee Responsibilities

1. Understand the budget process.
2. Annually review budget allocations and processes in light of program reviews, college's institutional outcomes, goals, and objectives and submit any proposed changes to the Superintendent/President and College Council.
3. Annually review institutional accomplishments based on established priorities and available resources.
4. Fulfill committee obligations as set forth in the college goals and objectives.
5. Fulfill committee obligations to college accreditation.
